PROFESSIONAL SUMMARY

Full-stack **Web Developer** with **4+ months of professional experience** at Diginature, specializing in **MERN Stack, Next.js, TypeScript, and modern web development**. Experienced in developing and maintaining production websites, blog-driven business platforms, and independently building full-stack SaaS applications. Strong foundation in **RESTful APIs, JWT authentication, RBAC, database integration, responsive UI, SEO, and third-party API integration**. Experienced in building AI-powered applications using **Google Gemini API** and payment workflows using **Stripe**. Focused on writing maintainable code and delivering scalable, secure, and user-centric solutions.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Java, C++, SQL
- **Frontend:** React.js, Next.js, Redux, Tailwind CSS, HTML5, CSS3, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful APIs, Middleware, JWT Authentication, RBAC
- **Databases:** MongoDB, Mongoose, MySQL, PostgreSQL, Drizzle ORM, Database Schema Design
- **APIs & Integrations:** Google Gemini API, Google GenAI SDK, Stripe API, Nodemailer, REST APIs
- **Tools & Platforms:** Git, GitHub, VS Code, NPM, Postman, Vercel, Turbopack
- **SEO & Analytics:** Basic SEO, Google Search Console, Google Analytics, Google Tag Manager
- **Concepts:** OOP, Data Structures & Algorithms, Authentication, Authorization, API Security

PROFESSIONAL EXPERIENCE

Web Developer May 2026 – Present

Diginature, Gurgaon

- Promoted from **Web Developer Intern** to full-time **Web Developer**, contributing to production websites and real-world client projects.
- Developed and maintained responsive business websites with a focus on **UI/UX, performance, cross-browser compatibility, and mobile responsiveness**.
- Worked on multiple websites with integrated **blog and content-driven functionality**, supporting content updates and website maintenance.
- Independently designed and developed complete web solutions from requirements through **frontend development, backend integration, database connectivity, testing, and deployment**.
- Collaborated with engineering and product teams to implement features, troubleshoot production issues, and improve existing applications.
- Applied **Git, REST API integration, responsive design, debugging, SEO fundamentals, and web performance optimization** across projects.

Full Stack Developer Trainee (MERN) Aug 2025 – Apr 2026

Q-Spiders

- Developed end-to-end web applications using the **MERN Stack** with scalable and maintainable application architecture.
- Designed secure **RESTful APIs** using Node.js and Express.js with **JWT-based authentication and Role-Based Access Control (RBAC)**.
- Built reusable and responsive **React.js components** and integrated frontend applications with backend services.
- Worked extensively with **MongoDB, Mongoose, Express.js, Node.js**, API testing, debugging, and Git-based development workflows.

KEY PROJECTS

Under The Neem – Restaurant Reservation Management SaaS Live Demo

Next.js 15, TypeScript, PostgreSQL, Drizzle ORM, Tailwind CSS, Framer Motion

- Independently designed and developed a full-stack **restaurant reservation management SaaS prototype** with customer booking and administrative management workflows.
- Implemented secure **JWT authentication, RBAC, granular permissions**, and protected administrative routes.
- Developed reservation workflows covering **booking, table assignment, confirmation, arrival, completion, cancellation, and rejection**.
- Built an administrative dashboard with **reservation filtering, search, CSV export, staff management, operational analytics, and notifications**.
- Implemented automated transactional email notifications using **Nodemailer** for confirmations, cancellations, and administrator alerts.

- Added comprehensive **audit logging** for administrative actions, including actor, action, affected entity, IP address, old values, and new values.
- Designed a dual-mode repository supporting **PostgreSQL** in production and JSON-based fallback storage for local development and demonstrations.
- Deployed the application on **Vercel** with production database integration and environment-based configuration.

FlashMind – AI-Powered Learning Assistant Live Demo

React.js, Node.js, Google GenAI SDK, Tailwind CSS

- Developed an AI-powered **SaaS learning platform** that processes PDFs and generates interactive **flashcards, quizzes, and summaries**.
- Integrated the **Google GenAI SDK** to provide contextual AI chatbot functionality for document-based queries.
- Built backend functionality using **Node.js and Multer** and implemented secure user data handling.
- Designed a responsive glass-morphism interface using **React.js and Tailwind CSS**.

ThinkGPT – Multi-Modal AI Platform Live Demo

MERN Stack, AI APIs, Stripe, MongoDB

- Architected an **AI SaaS platform** supporting conversational AI and text-to-image generation.
- Integrated **Stripe Payment Gateway** for subscription and transaction processing.
- Implemented MongoDB-based data storage and user session management for application workflows.

ADDITIONAL PROJECTS

ProLink – Professional Networking Platform Live Demo

Next.js, MongoDB, Mongoose

- Built a professional networking platform using **Next.js** with server-side rendering and SEO-focused architecture.
- Developed dynamic profile management and an automated **PDF resume generator**.

Secure Book Store – E-commerce Application GitHub

MERN Stack, JWT, OTP, Stripe

- Developed an e-commerce platform with **OTP verification, secure authentication, shopping cart, product filtering**, and checkout workflows.
- Built an administrative dashboard for inventory management and role-based authorization.

EDUCATION

Bachelor of Computer Applications (BCA) 2023 – 2026

Indira Gandhi National Open University (IGNOU), Delhi, India

Class XII (CBSE) 2022 – 2023

Blooming Dale School, Budaun, Uttar Pradesh

Class X (CBSE) 2019 – 2020

Maharishi Vidya Mandir Sr. Sec. School, Budaun, Uttar Pradesh
